

With the nights drawing in and the festive season fast approaching, now is the time to start shopping for those unusual gifts for the special people in your life and we know just the place to start looking.

Design Inspiration may be well known for its expert interior design service and beautifully made soft furnishings, but the showroom is also a hidden gem for that inspirational gift that need not cost the earth; in fact they have gift ideas to suit all pockets, with stocking fillers from £3.50. We asked designers, Wendy & Rose, to show us some of the ideas they had for that something different, as they went on to explain.
